

Your first GitHub homework submission:

Once you've completed and tested your homework assignment, it is time to upload (called 'commit') your code to GitHub.

1. Log in to GitHub.
2. Navigate to <https://github.com/robertgaum/CS110>
3. Click on the 'branches' tab.

 4 branches

4. Click on your branch name.
5. Click on 'Upload Files'.
6. Drag your homework file into the designated area or select it from your computer directory. Your file should have the .py extension.
7. Under 'Commit changes', type in a short comment about the file you are uploading, such as 'Week 1 homework'. Be descriptive.
8. Click 'Commit changes'.
